

## Test Coach Corporation Hosts

# BOUNDARY SCAN and FLYING PROBE TEST SEMINAR

Strategies to Expand Test Coverage

<b>What:</b>	Free Test Seminar	<b>Don't miss this opportunity!</b>  Please contact Corinne Weston to learn more about this seminar and sign up to attend.  <b>Phone: 847-885-4880</b> <a href="mailto:corinnew@testcoachcorp.com">corinnew@testcoachcorp.com</a>
<b>Where:</b>	Test Coach Corporation 948 Donata Court Lake Zurich, IL 60047	
<b>When:</b>	Tuesday, February 7th	

**You are invited** to attend a Test Seminar on Boundary Scan and Flying Probe test. Our speakers will walk you through the test development process and test strategy choices, highlighting the latest test technologies available.

### **Presentation Topics:**

- A summary of Boundary Scan test development from basic bscan test to emulation testing, illustrating reusability and portability - Heiko Ehrenberg, *GOEPEL Electronics*
- 
- Overview of Flying Probe test development, with a focus on test coverage using multiple techniques. The technology advancements of the latest generation machines will also be presented. - Andy Smithers, *SPEA America*
- 
- Identifying the test strategy choices for products at various stages in the life cycle - Jim Arient, *Test Coach Corporation*

We hope you will be able to attend this very informative seminar.

A catered breakfast and lunch will be provided to all attendees.

Test Coach is organizing and hosting this seminar in an effort to share information with the test community on test strategies and to expand awareness of the different test options available for **maximizing coverage while minimizing costs**. This is an opportunity to share ideas and review actual case studies in a relaxed format.

---

Who should attend? If you are a Program Manager, Test Engineer, Quality Manager, or Design Engineer or if you are working with an OEM or Contract Manufacturer, then this conference is designed for you. There is no registration fee for this informative test seminar.
